## BARRERA SHANIYA

*Rethinking Colonial Past Through Archaeology* Narr Francke Attempto Verlag

A obra apresenta o estudo das formas nominais de tratamento em três variedades do português. Uma herança comum subjaz entre os países lusófonos, e perdura até a atualidade com diferentes graus de intensidade e representação nacional. Com tão distintas formas de uso, o idioma, em cada um desses países, contribui com a constituição da identidade nacional. Este livro tem por objetivo avaliar comparativamente o sistema de formas de tratamento da variedade brasileira, moçambicana e angolana do português. **Investigação em ciências sociais e humanas** Springer Science & Business Media

Pela força da palavra, a narrativa oral transmite tradições e abre caminhos para sentir e experimentar a realidade, estimulando a reflexão e o desenvolvimento do olhar crítico sobre o mundo. Esta coletânea apresenta um panorama sobre a contação de histórias,

com ensaios teóricos, verbetes e depoimentos de escritores, estudiosos, professores, educadores, atores e contadores. Dividida em três eixos temáticos – tradição, poética e interfaces –, a obra aborda da tradição oral à relação da prática de contar histórias com outras linguagens artísticas, procurando, assim, registrar e tornar alvo de discussões, estudos e difusão essa poderosa técnica capaz de despertar o interesse pela narrativa e pela leitura.

Este segundo volume do Dicionário de História da África, de Nei Lopes e José Rivair Macedo, complementa aquele lançado em 2017, que aborda os séculos VII a XVI. Esta obra busca mostrar o que representou, sob a ótica dos vencidos, a presença europeia na África desde o século XVI. E em que consistiu o processo que, após três séculos, culminou na partilha do continente e na instauração do colonialismo, tendo como fator principal o tráfico negreiro. Pois o comércio humano foi a pedra fundamental do crescimento econômico do qual adveio o pretenso "supremacismo" europeu, que continua

regendo as relações humanas na maior parte do mundo, acarretando a africanos e descendentes as piores consequências. Além disso, este livro, pelo grande número de verbetes biográficos, toponímicos, etnográficos e conceituais, apoiados em extensa bibliografia, pode ser uma importante ferramenta na apreensão de novos conteúdos para estudantes, pesquisadores e demais interessados no tema.

Dicionário Changana-Português Dicionário Português-Changana Português em contato Collaborative Damage is an experimental ethnography of Chinese globalization that compares data from two frontlines of China's global intervention—sub-Saharan Africa and Inner/Central Asia. Based on their fieldwork on Chinese infrastructure and resource-extraction projects in Mozambique and Mongolia, Mikkel Bunkenborg, Morten Nielsen, and Morten Axel Pedersen provide new empirical insights into neocolonialism and Sinophobia in the Global South. The core argument in Collaborative Damage is that the different participants studied in

the globalization processes—local workers and cadres; Chinese managers and entrepreneurs; and the authors themselves, three Danish anthropologists—are intimately linked in paradoxical partnerships of mutual incomprehension. The authors call this "collaborative damage," which crucially refers not only to the misunderstandings and conflicts they observed in the field, but also to their own failure to agree about how to interpret the data. Via in-depth case studies and tragicomical tales of friendship, antagonism, irresolvable differences, and carefully maintained indifferences across disparate Sino-local worlds in Africa and Asia, Collaborative Damage tells a wide-ranging story of Chinese globalization in the twenty-first century.

Urban planning on the five Lusophone African countries - Angola, Cape Verde, Guinea-Bissau, Mozambique, and Sao Tome and Príncipe - has so far been relatively overlooked in planning literature. Bringing together a team of leading scholars, this book fills the gap by providing an in-depth analysis of key issues in the history of urban planning and discussing the key challenges confronting contemporary urban planning in these countries. The book argues that urban planning is a non-neutral and non-value free kind of public action and, therefore, ideology, planning

theories, urban models and the ideological role urban planning has played are some of the key issues addressed. For that reason, the practice of Urban Planning is also seen as the outcome of a complex interrelationship between structure and agency, with the role of key planners being examined in some of the chapters. The findings and insights presented by the contributing authors confirm previous research on urban planning in the colonial and postcolonial periods in Lusophone African countries and at the same time break fresh ground and offer additional insights as new evidence has been collected from archives and in fieldwork carried out by a new generation of researchers. In addition, it outlines possible directions for future research.

Rethinking Colonial Pasts Through  
Archaeology explores the archaeologies of daily living left by the indigenous and other displaced peoples impacted by European colonial expansion over the last 600 years. It presents alternative understandings of the rise of European colonization in its shaping of global histories from the last half millennium through archaeological findings, while revising conceptual frameworks for archaeology itself.

Die Aneignung des Portugiesischen als plurizentrischer Sprache mit den beiden Varietäten Portugals und Brasiliens, den Sprachvarietäten im Lusophonen Afrika und in Asien sowie als in Deutschland, Österreich und der Schweiz unterrichteter Herkunft- und Fremdsprache stellt Lehrende und Lernende vor komplexe Anforderungen. Die Beiträge dieses Bandes sind aus dem interdisziplinären Dialog von Forschenden sowie von Lehrenden aus den Bereichen Linguistik, Spracherwerbs-, Zweitsprachen- und Fremdsprachenforschung / Fachdidaktik entstanden. Sie vereinen lusophone Perspektiven verschiedener Kontinente und europäische Perspektiven auf das Portugiesische als Erst-, Zweit-, Herkunft- und Fremdsprache. Die Autor:innen beleuchten dabei unterschiedlichste Lern- und Lehrkontexte, die einerseits die institutionelle Einbettung des Unterrichts, andererseits die unterschiedlichen Ausgangs- und Bezugssprachen, die Biografien, die Lernmotivation und die sprachlichen Kompetenzniveaus der Akteure widerspiegeln. A aquisição do português como língua pluricêntrica com as variedades de Portugal e do Brasil, as variedades linguísticas da África Lusófona e da Ásia, e como língua estrangeira e língua de herança ensinadas na Alemanha, Áustria e Suíça apresenta aos professores e aprendentes desafios complexos. As contribuições neste volume emergiram do diálogo interdisciplinar de investigadores e professores das áreas da linguística e da pesquisa em aquisição de línguas, língua segunda, línguas estrangeiras / didática.

Combinam perspectivas lusófonas de diferentes continentes e perspectivas europeias sobre o português como língua primeira e segunda, língua de herança e língua estrangeira. Nesse quadro, os autores lançam luz sobre uma grande variedade de contextos de ensino-aprendizagem, refletindo, por um lado, a inserção institucional do ensino e, por outro, as diferentes línguas de partida e de referência, biografias, motivação e níveis de competência linguística dos atores.

Language, Literature and Culture in a Multilingual Society Edições Sesc

A shared interest of law and religion is the advancement of human flourishing, yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life. The concept of human flourishing is especially important for Africa, where community and national development compete with forces of conflict and scarce resources. In the broadest sense, the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life, but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it.
