**WALNECK'S CLASSIC CYCLE TRADER, JUNE 2006** Causey Enterprises, LLC

This book was produced to commemorate Buell Motor Company's 25th anniversary. Illustrated by hundreds of photographs from private collections and corporate archives, it covers Buell's history from inception to the present. Erik Buell is, of course, at the center of this inspiring story, but the company has thrived not just because of one energetic, visionary man, but because that man was able to inspire others around him to give 110 percent to their common objectives. This story is as much about the people of Buell as it is the motorcycles of Buell. Both, as you will learn, are remarkable.

The Complete Book of Moto Guzzi: 100th Anniversary Edition, Every Model Since 1921, written by respected motorcycle expert Ian Falloon, offers enthusiasts a thorough review of Guzzi's storied 100-year history via all of its production models. The oldest European motorcycle manufacturer in continuous production, Italy's Moto Guzzi has built some of the most iconic motorcycles ever produced. Established in 1921, the company is one of the most traditional motorcycle makers and also one of the most innovative. Carlo Guzzi's first engine design, a horizontal single, defined Moto Guzzi's road-going motorcycles for the company's first 45 years. In the 1950s, Moto Guzzi experienced tremendous success in Grand Prix motorcycle racing. Today, Moto Guzzi has a higher profile than ever, thanks to its popularity among enthusiast celebrities like Ewan McGregor. This new edition of The Complete Book of Moto Guzzi includes a 100th anniversary introduction, new photography, and additional pages to cover the newest models from 2018 to 2020. All of Moto Guzzi's production models are covered in detail, including the groundbreaking Falcone, the V-8 Grand Prix racers, the V7 Sport, the Ambassador, the Eldorado, the Le Mans, the Daytona, right up to today's the complete range of modern bikes including the V7, Griso, Stelvio, and V9. Celebrate a century of iconic Moto Guzzi machines, model by stunning model.

A young Londoner had only one ambition in life - to work with motorcycles. That simple wish led to an apprenticeship that was to change Bill Cakebread's life forever as the training that Associated Motorcycles Limited provided enabled achievements that he never dreamed possible. This book

gives a unique insight to the atmosphere and excitement of working in a motorcycle factory. It is an inspiring story, supported by a host of period photographs and rare documents, which provides a fascinating record of work within the British motorcycle industry in the final years of its decline into oblivion.

As you travel Africa, you will find the way of ubuntu - the universal bond that connects all of humanity as one. At the age of twenty-eight, while sitting in a friend's backyard in the remote mining township of Jabiru, Heather Ellis has a light-bulb moment: she is going to ride a motorcycle across Africa. The idea just feels right - no matter that she's never done any long-distance motorcycle travelling before, and has never even set foot on the African continent. Twelve months later, Heather unloads her Yamaha TT600 at the docks in Durban, South Africa, and her adventure begins. Her travels take her to the dizzying heights of Mt Kilimanjaro and the Rwenzori Mountains, to the deserts of northern Kenya where she is befriended by armed bandits and rescued by Turkana fishermen, to a stand-off with four Ugandan men intent on harm, and to a voyage on a 'floating village' on the mighty Zaire River. Everywhere she goes Heather is aided by locals and travellers alike, who take her into their homes and hearts, helping her to truly understand the spirit of ubuntu - a Bantu word meaning 'I am because you are'. Ubuntu is the extraordinary story of a young woman who, alone and against all odds, rode a motorcycle to some of the world's most remote, beautiful and dangerous places.

How to Build a Motorcycle leads you through all the key stages - from initially finding the right project for your skill level, to sourcing a base bike and safely taking on some full-on bike-building tasks. With clear, easy-to-follow instructions, proper advice and specially commissioned step-by-step illustrations throughout it is an ideal aid to getting your hands oily. Written by Gary Inman, the co-founder of independent motorcycle magazine Sideburn, and illustrated by Adi Gilbert who is best known for his bicycle and motorcycle drawings whose clients include Harley-Davidson, Guy Martin, Wired magazine, Sideburn magazine and Nike, this is a must-have for all motorcycle lovers. Read this book, even dip in and out where relevant. If it makes sense, schedule some time, clear your mind, pull on some old clothes, grab your toolbox and get going. The chapters in How to Build a Motorcycle will tell you how to complete a huge variety of tasks that will allow even the greenest of novices to get their hands dirty and start modifying with purpose. If you belong to this camp, start with some of the low-input, high-reward jobs, such as fitting bars, swapping the rear shocks or wiring in a new tail light. Even though these require relatively little work, they'll transform the look of your bike, and completing them will fill you with confidence to undertake the more difficult jobs, such as fitting more modern front forks or even making your own frame. The book comes with a glossy 32-page section on finished bikes and is a reference and the perfect gift for all fans, from those who merely like to tinker, to riders taking on a full build.
