second edition is fully  
updated in light of the  
latest research, policy and  
practice in the field, as  
well as key changes to the  
curriculum and  
examination  
specifications. Expert  
contributors provide a  
range of perspectives on  
international, historical  
and policy contexts in  
order to deepen our  
understanding of  
significant debates in  
geography education. Key  
debates include:  
geography's identity as an  
academic discipline; what  
constitutes knowledge in  
geography; places and  
regional geography; what  
it means to think  
geographically;  
constructing the  
curriculum; how we link  
assessment to making

progress in geography;  
the contribution of  
fieldwork and outdoor  
experiences; technology  
and the use of  
Geographical Information;  
school geography and  
employability;  
understanding the gap  
between school and  
university geography;  
evidence-based practice  
and research in  
geography education. The  
comprehensive, rigorous  
coverage of these key  
issues, together with  
carefully annotated
