Routledge Handbook of International Criminology Taylor & Francis

This second edition of the Handbook of Victims and Victimology presents a comprehensively revised and updated set of essays, bringing together internationally recognised scholars and practitioners to offer substantial research informed overviews within their specialist fields of investigation. This handbook is divided into five parts, with each part addressing a different theme within victimology: Part I offers a scene-setting exploration of new developments in the field, enduring issues that remain relatively unchanged and the gaps and traps within the contemporary victimological agenda Part II examines of the complex dimensions to victim experiences as structured by gender, age, ethnicity, sexuality and intersectionality Part III reflects on the problems and possibilities of formulating policy responses in the light of the changing appreciation of the nature and extent of victimhood Part IV focused on the value of a comparative lens and the problems and possibilities of victim policies when seen through this lens, explored along three geographical axes: Europe, Australia and Asia Part V considers other ways of thinking about who counts as a victim and what counts as victimhood and extends the boundaries of the victimological imagination outward Building on the success of the previous edition, this book provides an international focus on cutting-edge issues in the field of victimology. Including brand new chapters on intersectionality, child victims, sexuality, hate crime and crimes of the powerful, this handbook is essential reading for students and academics studying victims and victimology and an essential reference tool for those working within the victim support environment.

Victimology and Victim Assistance offers insights into the criminal justice system from the perspective of often overlooked participants—victims. Delving into victim involvement in the criminal justice system, the impact of crime on victims, and new directions in victimology and victim assistance, authors Yoshiko Takahashi and Chadley James provide crucial insights and practical applications into the field of victim assistance. With an emphasis on advocacy, intervention, and restoration, this book examines real issues and barriers in the criminal justice system for victims and offers a way forward for future criminal justice or other human service professionals.

[Crime and Victimization in a Globalized Era](#) Routledge

Victims of crime and the way in which they are treated in society generally is the subject of this text, which examines the contributions of victim-related research and criminal victimization surveys in order to be able to provide the reader with a critical assessment of the issues involved.

Routledge International Handbook of Green Criminology Routledge

The Routledge Handbook on American Prisons is an authoritative volume that provides an overview of the state of U.S. prisons and synthesizes the research on the many facets of the prison system. The United States is exceptional in its use of incarceration as punishment. It not only has the largest prison population in the world, but also the highest per-capita incarceration rate. Research and debate about mass incarceration continues to grow, with mounting bipartisan agreement on the need for criminal justice reform. Divided into four sections (Prisons: Security, Operations and Administration; Types of Offenders and Populations; Living and Dying in Prison; and Release, Reentry, and Reform), the volume explores the key issues fundamental to understanding the U.S. prison system, including the characteristics of facilities; inmate risk assessment and classification, prison administration and employment, for-profit prisons, special populations, overcrowding, prison health care, prison violence, the special circumstances of death row prisoners, collateral consequences of incarceration, prison programming, and parole. The final section examines reform efforts and ideas, and offers suggestions for future research and attention. With contributions from leading correctional scholars, this book is a valuable resource for scholars with an interest in U.S. prisons and the issues surrounding them. It is structured to serve scholars and graduate students studying corrections, penology, institutional corrections, and other related topics.

Since the publication of the first edition of 'Hate Crime' in 2005, interest in this subject as a scholarly and political domain has grown considerably both in Britain and North America, but significantly also in many other parts of the world. As such, this second edition fully revises and updates the content of the first, but within a broader international context. Building on the success of the first edition, this accessible, cross-disciplinary text also includes a wider range of international issues, and addresses new and emerging areas of concern within the field. The book will be of particular interest to academics, undergraduate and postgraduate students, criminal justice practitioners, and policy-makers working within the area of hate crime and related fields of crime, social justice, and diversity. It will also be of value to others who may hold a more general interest in what is

undoubtedly a rapidly evolving and increasingly important area of contemporary and global social concern.

The Routledge Handbook on Victims' Issues in Criminal Justice is a comprehensive and authoritative handbook on current issues, with a distinctive emphasis on the delivery of suitable and effective services. The editor provides an introduction and conclusion to the handbook, synthesizing original contributions from current leaders in the field, surveying victims' rights in the United States, victim participation in the criminal justice system, victims' welfare and needs, and most notably the services that have been developed in response. A section on special populations in the United States brings focus to current and emerging issues faced within the country, while a section covering international and transnational victimization explores globalization and the implications of other legal traditions and systems. This handbook addresses the crucial and complex topic of victims' issues, examining both societal and governmental reactions to victims' concerns and acquainting readers with the issues that discord may cause, and how they affect the provision of services. This book will serve as an essential reference for academics and practitioners working with crime victims, as well as for students taking courses in victimology, criminology, sociology, and related subjects.

The Routledge International Handbook of Islamophobia Routledge

This textbook was developed from an idiom shared by the authors and contributors alike: ethics and ethical challenges are generally black and white - not gray. They are akin to the pregnant woman or the gunshot victim; one cannot be a little pregnant or a little shot. Consequently, professional conduct is either ethical or it is not. Unafraid to be the harbingers, Turvey and Crowder set forth the parameters of key ethical issues across the five pillars of the criminal justice system: law enforcement, corrections, courts, forensic science, and academia. It demonstrates how each pillar is dependent upon its professional membership, and also upon the supporting efforts of the other pillars - with respect to both character and culture. With contributions from case-working experts across the CJ spectrum, this text reveals hard-earned insights into issues that are often absent from textbooks born out of just theory and research. Part 1 examines ethical issues in academia, with chapters on ethics for CJ students, CJ educators, and ethics in CJ research. Part 2 examines ethical issues in law enforcement, with separate chapters on law enforcement administration and criminal investigations. Part 3 examines ethical issues in the forensic services, considering the separate roles of crime lab administration and evidence examination. Part 4 examines ethical issues in the courts, with chapters discussing the prosecution, the defense, and the judiciary. Part 5 examines ethical issues in corrections, separately considering corrections staff and treatment staff in a forensic setting. The text concludes with Part 6, which examines ethical issues in a broad professional sense with respect to professional organizations and whistleblowers. *Ethical Justice: Applied Issues for Criminal Justice Students and Professionals* is intended for use as a textbook at the college and university, by undergraduate students enrolled in a program related to any of the CJ professions. It is intended to guide them through the real-world issues that they will encounter in both the classroom and in the professional community. However, it can also serve as an important reference manual for the CJ professional that may work in a community that lacks ethical mentoring or leadership. First of its kind overview of the five pillars of criminal justice: academia, law enforcement, forensic services,

courts and corrections Written by practicing criminal justice professionals, from across every pillar Offers a realistic overview of ethical issues confronted by criminals justice students and professionals Examines sensitive subjects often ignored in other criminal justice ethics texts Numerous cases examples in each chapter to facilitate instruction and learning *Current Issues and Perspectives* Academic Press

With the academic study of 'war' gaining renewed popularity within criminology in recent years, this book illustrates the long-standing engagement with this social phenomenon within the discipline. Foregrounding established criminological work addressing war and connecting it to a wide range of extant sociological literature, the authors present and further develop theoretical and conceptual ways of thinking critically about war. Within this book, whilst providing an implicit critique of mainstream criminology the authors seek to question if a 'criminology of war' is possible, and if so how this seemingly 'new horizon' of the discipline might be usefully informed by sociology.

The Emerald Handbook of Feminism, Criminology and Social Change Routledge

Victims of crime may experience a wide variety of traumas that result in physical, sexual, financial, psychological, emotional, and/or social consequences. While the types of trauma can vary greatly and include lesser-known forms such as vicarious and secondary trauma, identifying and recognizing victims can be complicated. Throughout this book, experts and professionals from academia and the fields of criminal justice, social work, and mental health acknowledge victims historically overlooked by society, political movements, the media, and/or the criminal justice system - we acknowledge the invisible victims. *Invisible Victims and the Pursuit of Justice: Analyzing Frequently Victimized Yet Rarely Discussed Populations* pioneers the assertion that our view of victims needs to be more inclusive by exploring invisible victims that are rarely, if ever, a focus of discussions in traditional victimology textbooks. To educate the reader and begin working toward positive change, each chapter identifies an invisible victim and provides the background, controversies, issues, solutions, and areas of future research. It is crucial to identify these gaps in the field as some of the most victimized populations remain absent from important dialogue on crime victims. This book is appropriate for a wide range of readership including but not limited to criminologists, victim service providers, psychologists, sociologists, social workers, advocate groups, law enforcement, lawyers, defense attorneys, criminal justice practitioners, academicians, researchers, and students studying criminology, criminal justice, victimology, social work, psychology, and social justice.

Handbook of Restorative Justice Routledge

This edited collection brings together many of the world's leading experts, both academic and practitioner, in a single volume handbook that examines key international issues in the field of hate crime. Collectively it examines a range of pertinent areas with the ultimate aim of providing a detailed picture of the hate crime 'problem' in different parts of the world. The book is divided into four parts: An examination, covering theories and concepts, of issues relating to definitions of hate crime, the individual and community impacts of hate crime, the controversies of hate crime legislation, and theoretical approaches to understanding offending. An exploration of the international geography of hate, in which each chapter examines a range of hate crime issues in different parts of the world, including the UK, wider Europe, North America, Australia and New Zealand. Reflections on a number of different perspectives across a range of key issues in hate

crime, examining areas including particular issues affecting different victim groups, the increasingly important influence of the Internet, and hate crimes in sport. A discussion of a range of international efforts being utilised to combat hate and hate crime. Offering a strong international focus and comprehensive coverage of a wide range of hate crime issues, this book is an important contribution to hate crime studies and will be essential reading for academics, students and practitioners interested in this field.

Routledge International Handbook of Restorative Justice Springer

Although the literature and cultural practices of the South Asian region demonstrate a rich understanding of criminology, this handbook is the first to focus on crime, criminal justice, and victimization in Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka. South Asia's rapid growth in population and economy continues to introduce transformations in social behaviors, including those related to criminality and victimization. Readers of this handbook will gain a comprehensive look at criminology, criminal justice, and victimology in the South Asian region, including processes, historical perspectives, politics, policies, and victimization. This collection of chapters penned by scholars from all eight of the South Asian nations, as well as the US, UK, Australia, and Belgium, will advance the study and practice of criminology in the South Asian region and carry implications for other regions. The Routledge Handbook of South Asian Criminology provides a wealth of information on criminological issues and their effect on the countries and governments' efforts to mitigate them. It is essential reading for students and scholars of South Asian criminology, criminal justice, and politics.

The Routledge International Handbook on Hate Crime Routledge

A complex and vulnerable contemporary society continually poses new challenges in terms of social conflict, and as crime advances, so must strategies for prevention and rehabilitation. Many facets of crime prevention and rehabilitation of offenders are public activities closely linked to other aspects of the political and social life of a region. The Handbook of Research on Trends and Issues in Crime Prevention, Rehabilitation, and Victim Support is a scholarly publication that examines existing knowledge on crime dynamics and the implementation of crime victims' rights. Highlighting a wide array of topics such as cyberbullying, predatory crimes, and psychological violence, this book is ideal for criminologists, forensic psychologists, psychiatrists, victim advocates, law enforcement, criminal profilers, crime analysts, therapists, rehabilitation specialists, psychologists, correctional facilities, wardens, government officials, policymakers, academicians, researchers, and students.

Invisible Victims and the Pursuit of Justice: Analyzing Frequently Victimized Yet Rarely Discussed Populations Routledge

Drawing upon international expertise, and including some of the most well-known academics and practitioners in the field, The Routledge International Handbook of Human Aggression is the first reference work to fully capture how our understanding of aggression has been refined and reconceptualised in recent years. Divided into five sections, the handbook covers some of the most interesting and timely topics within human aggression research, with analysis of both indirect and direct forms of aggression, and including chapters on sexual aggression, workplace bullying, animal abuse, gang violence and female aggression. It recognises that, in many cases, aggression is an adaptive choice rather than a moral choice. Providing practitioners and academics with an up-to-

date resource that covers broad areas of interest and application, the book will be essential reading for students, researchers and practitioners associated with a range of social science disciplines, including psychology, criminology, social work and sociology, particularly those with an interest in developmental, organisational, forensic and criminal justice allied disciplines.

Practitioners' Guide CRC Press

Islamophobic hate crimes have increased significantly following the terrorist attacks of 9/11 and 7/7. More recently, the rhetoric surrounding Trump's election and presidency, Brexit, the rise of far-right groups and ISIS-inspired terrorist attacks worldwide have promoted a climate where Islamophobia and anti-Muslim sentiments have become 'legitimised'. The Routledge International Handbook of Islamophobia provides a comprehensive single-volume collection of key readings in Islamophobia. Consisting of 32 chapters accessibly written by scholars, policy makers and practitioners, it seeks to examine the nature, extent, implications of, and responses to Islamophobic hate crime both nationally and internationally. This volume will appeal to undergraduate and postgraduate students as well as postdoctoral researchers interested in fields such as Criminology, Victimology, Sociology, Social Policy, Religious Studies, Law and related Social Sciences subjects. It will also appeal to scholars, policy makers and practitioners working in and around the areas of Islamophobic hate crimes.

Victimology and Victim Assistance Routledge

This authoritative volume explores different perspectives on economic and social justice and the challenges presented by and within the criminal justice system. It critically discusses key concerns involved in realizing economic and social justice, including systemic issues in economic and social justice, issues related to organizations and social institutions, special issues regarding specific populations, and a review of national and international organizations that promote economic justice. Addressing more than just the ideology and theory underlying economic and social justice, the book presents chapters with practical examples and research on how economic and social justice might be achieved within the criminal justice systems of the world. With contributions from leading scholars around the globe, this book is an essential reference for scholars with an interest in economic and social justice from a wide range of disciplines, including criminal justice and criminology as well as sociology, social work, public policy, and law.

The Victim and the Criminal Justice Process CRC Press

Over the last thirty years, victims of crime have become a staple topic of media interest and policy-making discourse. Drawing on an extensive programme of first-hand empirical data gathered at some 300 English criminal trials, this book examines the practical outcomes of this reform agenda and assesses the meaning, implications and impact of the government's pledge to put victims 'at the heart' of the criminal justice system. The study also draws on in-depth interviews with barristers and solicitors, as well as court administrators and other Local Criminal Justice Board members. The book delves into the policy-making process behind these reforms, based on interviews conducted at key government departments, and offers a model for what a genuinely 'victim centred' criminal justice system might look like in the twenty-first century, drawing on the psychological and sociological literature on narrative responses to traumatic events.

The Routledge International Handbook of Human Aggression Academic Press

Academic and general interest in environmental crimes, harms, and threats, as well as in environmental legislation and regulation, has grown sharply in recent years. The Routledge International Handbook of Green Criminology is the most in-depth and comprehensive volume on these issues to date. With contributions from leading international green criminologists and scholars in related fields, the Handbook examines a wide range of substantive issues, including: climate change corporate criminality and impacts on the environment environmental justice media representations pollution (e.g. air, water) questions of responsibility and risk wildlife trafficking The chapters explore green criminology in depth, its theory, history and development, as well as methodological concerns for this area of academic interest. With examples of environmental crimes, harms, and threats from Africa, Asia, Australia, Eastern Europe, South America, the United Kingdom, and the United States, this book will serve as a vital resource for international scholars and students in criminology, sociology, law and socio-legal studies, as well as environmental science, environmental studies, politics and international relations.
